

what is **alternative** sexuality?

how **you** can help

Millions of consenting adults engage in Leather-BDSM, Swing and Polyamory activities. Many experience discrimination and persecution due to negative stereotypes that are encouraged by the media and religious and political extremists. NCSF's Violence & Discrimination Survey found that 30% of the respondents experienced discrimination, while 36% suffered violence or harassment.

Leather-BDSM: Behaviors that involve the consensual exchange of power, intense erotic stimulation and/or the use of mental/emotional/physical discipline to produce sexual arousal and satisfaction. Five to ten percent of the adult population in America engages in BDSM on at least an occasional basis.*

Swinging: Social and sexual interaction with someone other than your significant other, with each couple honestly defining the limits of their activities for themselves. Two percent of adults in America have tried swinging, which is also known as "The Lifestyle."**

Polyamory: Intimate relationships in which consenting adults explore love and sex outside of traditional monogamy, often forming multiple committed relationships with the consent of all partners. According to one study, 28% of the respondents had "an understanding that allows nonmonogamy under some circumstances." **

The NCSF relies overwhelmingly on contributions from individuals and local Leather-BDSM, Swing and Polyamory groups for financial support. Ask your group to organize a fundraiser for NCSF, and contact us at info@ncsfreedom.org to find out how easy it can be!

You can also participate in NCSF activities, ranging from writing letters to the media and government officials, to joining in community outreach.
